## Who We Are

Spyder Byte Studios is a full-service, 24 track digital recording studio located in beautiful Alpena, Michigan. We offer a truly professional smoke-free environment geared towards the comfort of the artist and convenience for the crew.

Our in-house system is comprised of a Mackie D8B digital console (with complete real-time automation and recall) hooked optically to a Mackie MDR 24/96 multi-track recorder. Spyder Byte Studios also features Pro-Tools non-linear digital audio workstations (DAW), and 24 tracks of Alesis ADAT. We can also assist with hired professional musicians; guitar players, vocalists, keyboard players, fiddle players, drummers and others are only a phone call away.

Spyder Byte Studios is the only recording studio in Northern Michigan that includes free full-color professional graphic design services with every full-length project when you use Discmakers or Oasis for your duplication needs. We deliver all full-length projects in shrink-wrapped, retail-ready packaging (including bar code) in time for your next big event. Get the look and feel that signed artists receive at a fraction of the cost.

## We Need Your Help

Spyder Byte Studios is now offering businesses like yours an opportunity to support and further encourage your local music scene through our Gold Star Referral Program.

Our Gold Star Referral Program is simply the easiest way for you to earn cash while providing a valuable service to musicians and artists that you come in contact with. It's our way of saying "Thanks" for showing support of our local artists.

## How It Works

Spyder Byte Studios will provide you with custom cards that include your business name. When one of these cards is returned to us, upon completion of the project we will send you a check for 10% of the recording services bill (up to \$150). It's just our way of saying "Thanks". It's that simple. No strings, no fine print, no up front cost.
